- WordPress

## SUMMARY

With seven years of experience as an Air Force Special Operator, I bring a wealth of valuable skills to my new career in computer science. My military background has instilled in me strong leadership, teamwork, and problem-solving abilities, which have been instrumental in my pursuit of a degree at the University of Missouri-Kansas City. I am passionate and committed to advancing my coding skills through continuous learning and practical applications.

## WORK EXPERIENCE

### Java Frontend Developer (Internship)

#### Blue Symphony

📅 June 2023 - August 2023

📍 Kansas City, KS

- Worked collaboratively within cross-functional teams to create and implement responsive, user-friendly website designs.
- Contributed to developing visually captivating web pages using Java, HTML, CSS, and JavaScript.
- Carried out detailed user interface testing to ensure the precise depiction of design elements.
- Deepened comprehension of UI/UX design principles, leading to improved structures and enhanced code quality.

### Drone Technician & Pilot

#### Pacific Gas and Electric (PG&E)

📅 December 2020 - December 2021

📍 California, USA

- Maintained and managed a drone fleet, overseeing \$75,000 in equipment ensuring performance, safety, and mission success in various environments and conditions.
- Performed regular software updates on drones and adeptly resolved issues through efficient troubleshooting.
- Managed a four-member team, successfully completing over 1000 operations with project success and zero mishaps.

### Combat Control Journeyman (CCT)

#### US Air Force (USAF)

📅 November 2013 – January 2019

📍 Lakewood, WA

- Provided expert advisory support to defense attaché from multiple countries at various US embassies.
- Executed precise air traffic control and combat operations coordination, demonstrating exceptional leadership and communication skills in high-stress environments.
- Collaborated with the U.S. Embassy and senior military leaders of host nations to design and implement training programs to enhance partner nation capacity for conducting military operations costing over \$5,000,000.
